We had 70 parents complete the survey (58% response rate). It may have been that some existing Greville parents didn't feel the need to respond if their child was already in the school when moving from Y2 to Y3.

Overall the responses were extremely positive. (For the purposes below, I assumed the 'have not experienced' was neither positive or negative so have discounted from the percentages)

- 100% felt the induction evening was beneficial
- 100% felt the induction drop-in afternoon in September was enjoyable for their child
- 100% felt that their child feels safe
- 100% felt their child is well looked after
- 100% would recommend the school to other parents
- 99% felt their child is happy in school
- 97% felt communication with Year 3 staff is effective

Our aim is always to provide the best possible educational experiences for the children and all feedback is taken seriously. Leaders have been through all the written responses, along with the results above.

I plan on having a 'coffee morning' for **all junior** parents on **Thursday 7th December at 9am in the main hall** and would welcome the opportunity to hear any other ideas or views regarding the school. After this meeting, the findings will be shared with governors and staff to reflect on strengths and potential areas we need to develop further.

More information will follow regarding this meeting next week
